- Large inspection doors
- Cable or electric control
- Round flanged inlets and outlets
- Brushed outlet to reduce dust and material buildup.

Brushed outlet

6"-24" Diameters
Up to 18 outlets
Single or double inlets

CONTROL OPTIONS

CABLE CONTROL

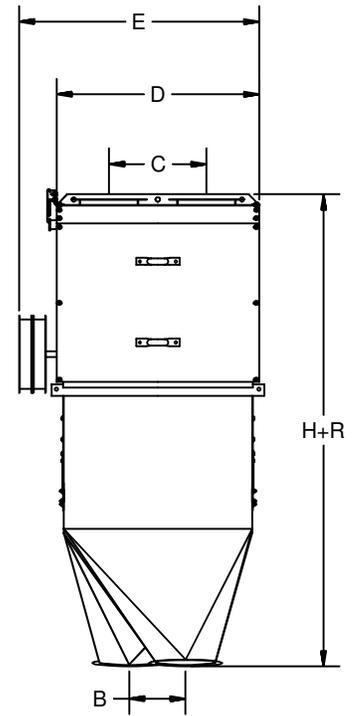

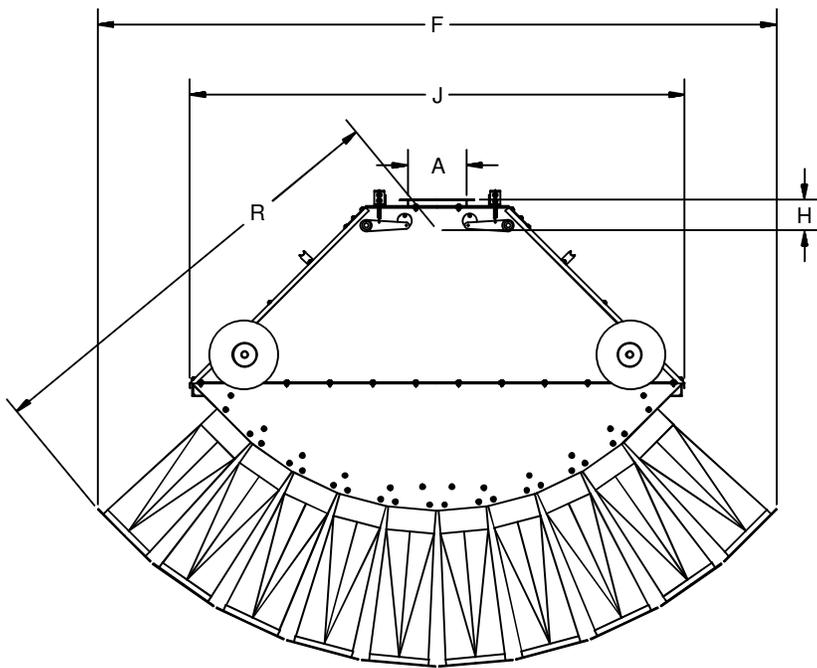

The operator steps on a foot pedal releasing the locking pin from the indicator plate. The turnhead is moved by the handwheel to the desired position. The operator removes his foot from the pedal locking the turnspout into position.

ELECTRIC CONTROL

The operator is able to select the spout and outlet position with the press of one button. The control box has a bright backlit display for easy reading day or night. The unit has an auto tuning and self test feature for high reliability. The proximity switches provide reliable control over the turnspout.

Cable control foot pedal
